

**When MUMPS got Jill
it made her ill.**

**She didn't stay home,
but partied.**

Now she's all alone.

Her friends don't phone.

**They all got mumps
at the party!**

Mumps means no parties,
no friends, no classes,
intense pain in cheeks and throat,
difficulty swallowing,
weakness and fever.

Mumps can cause deafness,
and meningitis.

**Protect yourself
against mumps.**

**For more information
check out mumps.ie**
